## Personal Profile

A Bachelor's student at the University of Tehran, with 2+ years of experience in full-stack developing in Dybug company. Primarily, looking for Machine Learning/Data Engineer

## Education

### University of Tehran (Best university of Iran generally and in computer science field)

Tehran, Iran

Bachelor of computer science

Sept 2018 - Current

- GPA: 3.26/4

### Iranian University Entrance Exam(Konkur)

Tehran, Iran

Before bachelor

July 2018

- Rank: 388 from 144437 applicants

### Alavi

Tehran, Iran

High School

Sept 2014 - July 2018

- GPA: 19.85/20

## Scholarships And Certifications

**Scholarship** for study from University of Tehran

**2 years Scholarship** for rank of Iranian University Entrance Exam from University of Tehran

**Certificate of Teaching Swim** this certification is given in summer of 2017

## Research Interests

- Machine Learning
- Artificial Intelligence
- Deep Learning
- Supervised Learning
- Data Mining
- Speech Recognition
- Handwriting Recognition
- NLP

## Related Courses

**Deep learning** on studying

**Statistical Methods** on studying

**Artificial Intelligence** 18/20

**Programming** 18.75/20

**Natural Inspired Algorithms** 17.62/20

**Data Mining** 14.5/20

**Linear Algebra** 15.5/20

**Probability 1** 15/20

## University Projects

---

<b>Scientific calculations</b>	Implementation of Bezier curves on a dataset of English handwriting for classification and recognition. (by help of one of my teacher in ML area)
<b>AI</b>	recognition pattern of some cancer cells
<b>Natural Inspired Algorithms</b>	training a basic neural network
<b>Data Mining</b>	Extraction some Association Rules and do Classification on a dataset
<b>Assembly</b>	Implementation of calculator with 4 main operations
<b>Advanced programming</b>	Tank game, system of ordering in cafe (both object oriented base)
<b>Advanced programming</b>	Design a Morris Mano basic coamputer in logisim software
<b>Languages of Programming</b>	Tic-tac-toe game with rust
<b>Basic programming</b>	deploy a website by Django

## Work Experience

---

- Data analyzer app for student of one Alavi high school
- Notification system for SMS and telegram by django and DRF
- Design and deploy automation of factory of ScarfBank company
- Deploy Whatsapp engine for Odoo ERP

## Teaching Experience

---

- Tutor of programming by Python for 6 month
- Tutor of Statistics and probability lesson for a bachelor student for 4 month
- Tutor of Math for high school students for 4 month
- Tutor of Arabic for a high school student for 5 month

## Skills

---

### Programming

- **Python:** Pandas, PyTorch, Tensorflow, NumPy, Django, DRF
- **java**
- **assembly**
- **rust**
- **R**
- **JavaScript**
- **HTML/CSS**
- **SQL**

### Soft Skills

- **Linux**
- **LaTeX**
- **Docker**
- **Git**

### Miscellaneous

- **writing**
- **giving speech**
- **teaching**
- **playing tennis**
- **playing soccer**

## Languages

---

<b>Persian</b>	Mother tongue
<b>English</b>	IELTS on studying
<b>Arabic</b>	professional level in academic Arabic

## Hobbies and Interests

---

- solving enigmas and puzzles
- playing and watching Tennis
- playing Soccer
- playing and watching Tennis
- reading
- watching movies
- travelling with family and friends
