

# Amin Razavi

+989360705198 | m.a.razavi78@gmail.com | amin-razavi.ir

## Personal Profile

M.Sc. in Computer Science, specializing in Artificial Intelligence and Soft Computing, at Allameh Tabataba'i University , and B.Sc. in Computer Science from the University of Tehran With 5+ years of experience in full-stack development, with a strong interest and experience in Machine Learning, Artificial Intelligence, and Data Mining. Currently, serving as the CTO of Jam Academy, MJYM, a platform for basketball academies and sports education.

## Education

|                                                                                                                                |                                       |
|--------------------------------------------------------------------------------------------------------------------------------|---------------------------------------|
| <b>Allameh Tabataba'i University</b><br>M.Sc. in Computer Science, Artificial Intelligence and Soft Computing<br>• GPA: 3.88/4 | Tehran, Iran<br>Sept 2024 - Present   |
| <b>University of Tehran</b><br>B.Sc. in Computer Science<br>• GPA: 3.26/4                                                      | Tehran, Iran<br>Sept 2018 - Sept 2023 |
| <b>Iranian University Entrance Exam(Konkur)</b><br>Before bachelor<br>• Rank: 388 among 144437 applicants                      | Tehran, Iran<br>July 2018             |
| <b>Alavi</b><br>High School<br>• GPA: 19.85/20                                                                                 | Tehran, Iran<br>Sept 2014 - July 2018 |

## Scholarships And Certifications

|                                     |                                                                                 |
|-------------------------------------|---------------------------------------------------------------------------------|
| <b>Odoo certificate</b>             | Backend Technical Consultant Onboarding (BTCO)                                  |
| <b>Scholarship</b>                  | for study as a bachelor student from University of Tehran                       |
| <b>2 years Scholarship</b>          | for rank of Iranian University Entrance Exam (Konkur) from University of Tehran |
| <b>Certificate of Teaching Swim</b> | this certification was given in summer of 2017                                  |

## Research Interests

- Artificial Intelligence
- Machine Learning
- Deep Learning
- Neural Networks
- Natural Language Processing
- Reinforcement Learning
- Software Engineering
- ML in Transcriptomics
- Pattern Recognition
- Data Mining

## Related Courses

|                                         |          |
|-----------------------------------------|----------|
| <b>Neural Networks</b>                  | 20/20    |
| <b>Soft Computing</b>                   | 19/20    |
| <b>Advanced Artificial Intelligence</b> | 18.5/20  |
| <b>Artificial Intelligence</b>          | 18/20    |
| <b>Reinforcement Learning</b>           | 18.5/20  |
| <b>Natural Language Processing</b>      | 17.5/20  |
| <b>Computational Data Mining</b>        | 17/20    |
| <b>Machine Learning</b>                 | 16/20    |
| <b>Programming</b>                      | 18.75/20 |
| <b>Natural Inspired Algorithms</b>      | 17.7/20  |

# University Projects

---

|                                    |                                                                                                                                                         |
|------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Master's Thesis</b>             | Deep Learning-Based Prediction of Influenza A Virus Subtypes Using HA and NA Protein Sequences                                                          |
| <b>Natural Language Processing</b> | Fine-Tuning a Language Model for Informal-to-Formal Persian Text Conversion                                                                             |
| <b>Machine Learning</b>            | Feature Extraction and Reduction with Optimized SVM for Persian/Arabic Handwritten Digit Recognition                                                    |
| <b>Natural Language Processing</b> | Sentiment Classification of IMDB Reviews Using ELMO                                                                                                     |
| <b>Natural Language Processing</b> | Document Question Answering System Using Retrieval-Augmented Generation (RAG)                                                                           |
| <b>Graph Neural Network</b>        | Explored GNN definitions and their advantages over regular NNs in problem-solving.                                                                      |
| <b>Scientific calculations</b>     | Implemented of Bezier curves on a dataset of English handwriting for classification and recognition.<br>(by the help of one of my teachers in ML field) |
| <b>Artificial Intelligence</b>     | Recognized pattern of some cancer cells                                                                                                                 |
| <b>Natural Inspired Algorithms</b> | Developed a basic neural network                                                                                                                        |
| <b>Data Mining</b>                 | Extracted some Association Rules and generated Classification on a dataset                                                                              |
| <b>Assembly</b>                    | Implemented a calculator with 4 main operations                                                                                                         |
| <b>Assembly</b>                    | Designed a Morris Mano basic computer in Logisim software                                                                                               |
| <b>Advanced programming</b>        | Created Tank game, system of ordering in cafe (both object oriented base) using Java                                                                    |
| <b>Languages of Programming</b>    | Made Tic-tac-toe game with Rust                                                                                                                         |
| <b>Basic programming</b>           | Developed and deployed a website by Django                                                                                                              |

# Freelance Projects

---

## Freelance AI and Machine Learning Projects

March 2025 - July 2026

For Various Clients

- Real-time fall detection using YOLOv10
- Customer churn prediction using XGBoost model
- Customer segmentation using clustering techniques
- News clustering using BERT and K-Means
- Sentiment analysis and classification of user reviews using machine learning

## Designed and developed a website

April 2023 - Present

for JAM Basketball Academy

- **Technical Skills:** Python (Django, Numpy), *SQL Server*, Git
- **Soft Skills:** Pattern designing, Problem Solving, Teamwork, Time Management, Communication

## Backend Developer

March 2026 - Present

for Pas Shipping

- **Technical Skills:** Python (Django), *SQL Server*, Git
- **Soft Skills:** Pattern designing, Problem Solving, Teamwork, Time Management, Communication

## Backend Developer

January 2026 - Present

for RMSEnglish

- **Technical Skills:** Python (Django, Numpy), *SQL Server*, Git
- **Soft Skills:** Pattern designing, Problem Solving, Teamwork, Time Management, Communication

## Developed a data analyzer app

September 2020 - January 2021

for students of Alavi high school

- **Technical Skills:** Python (Django, Numpy), *SQL Server*, chart.js, Git
- **Soft Skills:** Problem Solving, Teamwork, Time Management, Communication

## Developed a notification system

February 2021 - August 2021

for SMS and Telegram

- **Technical Skills:** Python (Django, DRF), PostgreSQL, API and CRUD, Git
- **Soft Skills:** Problem Solving, Time Management

## Designed and developed an automation

September 2021 - May 2022

for factory of ScarfBank

- **Technical Skills:** Python (Django, DRF), PostgreSQL, API and CRUD, Git
- **Soft Skills:** Agile, Pattern designing, Writing code structures, Problem Solving, Time Management, Communication

## Developed and deployed Whatsapp engine

June 2022 - December 2022

for Odoo ERP

- **Certification:** Dynamic BTCO Certificates
- **Technical Skills:** Python (Django, DRF), JS (Fastify), API, Git
- **Soft Skills:** Pattern designing, Writing code structures, Problem Solving, Communication

# Skills

---

**Programming:**

- Python: Pandas, PyTorch, Tensorflow, NumPy, Django, DRF
- Java
- Assembly
- Rust
- R
- JavaScript
- HTML/CSS
- SQL

**Technical Skills:**

- Git
- Linux
- LaTeX
- Docker

**Miscellaneous:**

- Agile
- writing
- giving speech
- teaching
- playing tennis
- playing soccer

# Teaching Experience

---

- Teaching Assistant in Machine Learning Course, Fall 2025, Allameh Tabataba’i University
- Teaching Assistant in NLP Course, Winter 2026, Allameh Tabataba’i University
- Tutor of Python programming for 6 month
- Tutor of Statistics and probability lesson for a bachelor student for 4 month
- Tutor of Math for high school students for 4 month
- Tutor of Arabic for a high school student for 5 month

# Languages

---

- Persian**    Mother tongue
- English**    Duolingo: 135/160
- Arabic**    professional level in academic Arabic

# Hobbies and Interests

---

- |                             |                                   |
|-----------------------------|-----------------------------------|
| Programming                 | Reading                           |
| Solving enigmas and puzzles | Researching                       |
| Playing and Watching Tennis | Watching movies                   |
| Playing Soccer              | Traveling with Family and Friends |
